

User Manual

Wired Music Headset

Use Manual

(This Use Manual applies to phone / tablet PC / computer / MP3 / MP4 / CD)

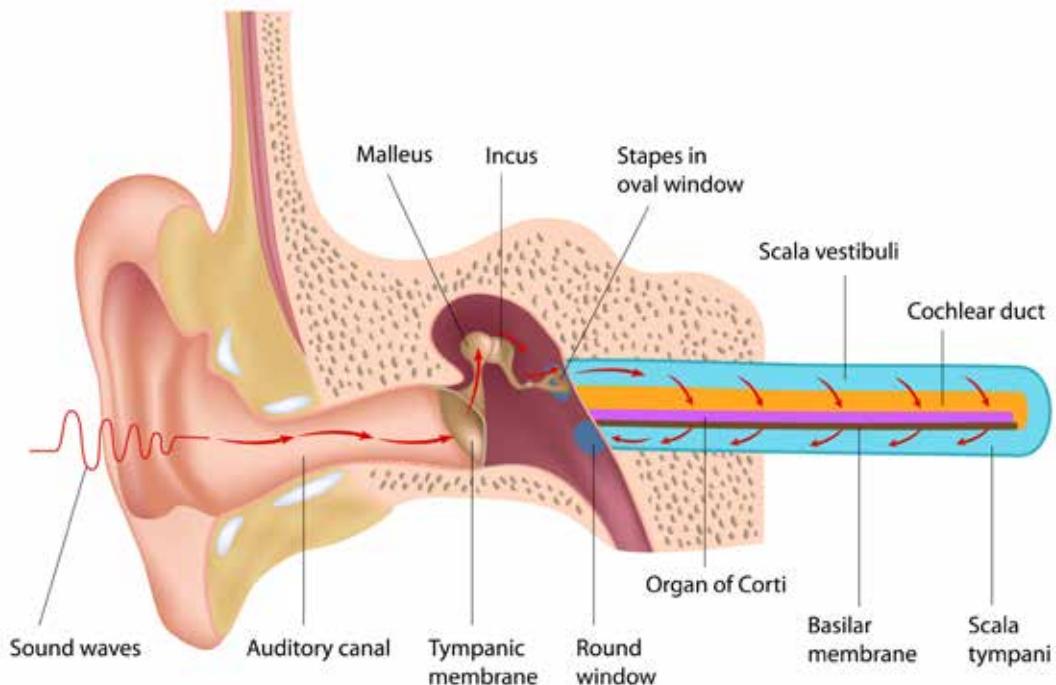

Attention

Please take a few moments to familiarize yourself with the controls and operation of your new headphones. Also please take note of any warning notices throughout this manual, and keep it for future reference.

Warning

Listening to the music at high levels for extended periods of time can damage your hearing. Adjust the volume before placing the headphones over your ears to protect them against sudden bursts of sound. To avoid the risk of fire or electric shock, do not expose the device to rain or moisture. To avoid electric shocks, do not open the case.

Maintenance may be carried out by qualified Nutz personnel only.

V. Precautions:

To ensure the best sound effect for personnel use, the earcups should enclose the full ear.

- Clean the headset use a piece of clean dry cloth provided.
- Ensure that all jack plugs are clean and free from any dust.
- Do not leave the headset in any place that has direct sunlight, heat source or moisture.
- Ensure you remove the jack plus carefully by placing your fingers on the jack plug to remove from the connected device. Do not pull the cable to remove the jack plug, this may damage the cable and make your headphone inoperable.
- Your earmuffs are fully washable. First remove them from the headset, and then wash them with water and mild detergent. After cleaning, ensure they are dry before use.
- Continuous listening at high volume for a long time is harmful to your hearing. The recommended level for listening to headphones is 70% of the maximum capable volume from your device.
- Do not use a headset when driving or cycling. This could lead to a serious accident.
